

Pregnancy Model: Rank vs deviance

Optimization of latent factors

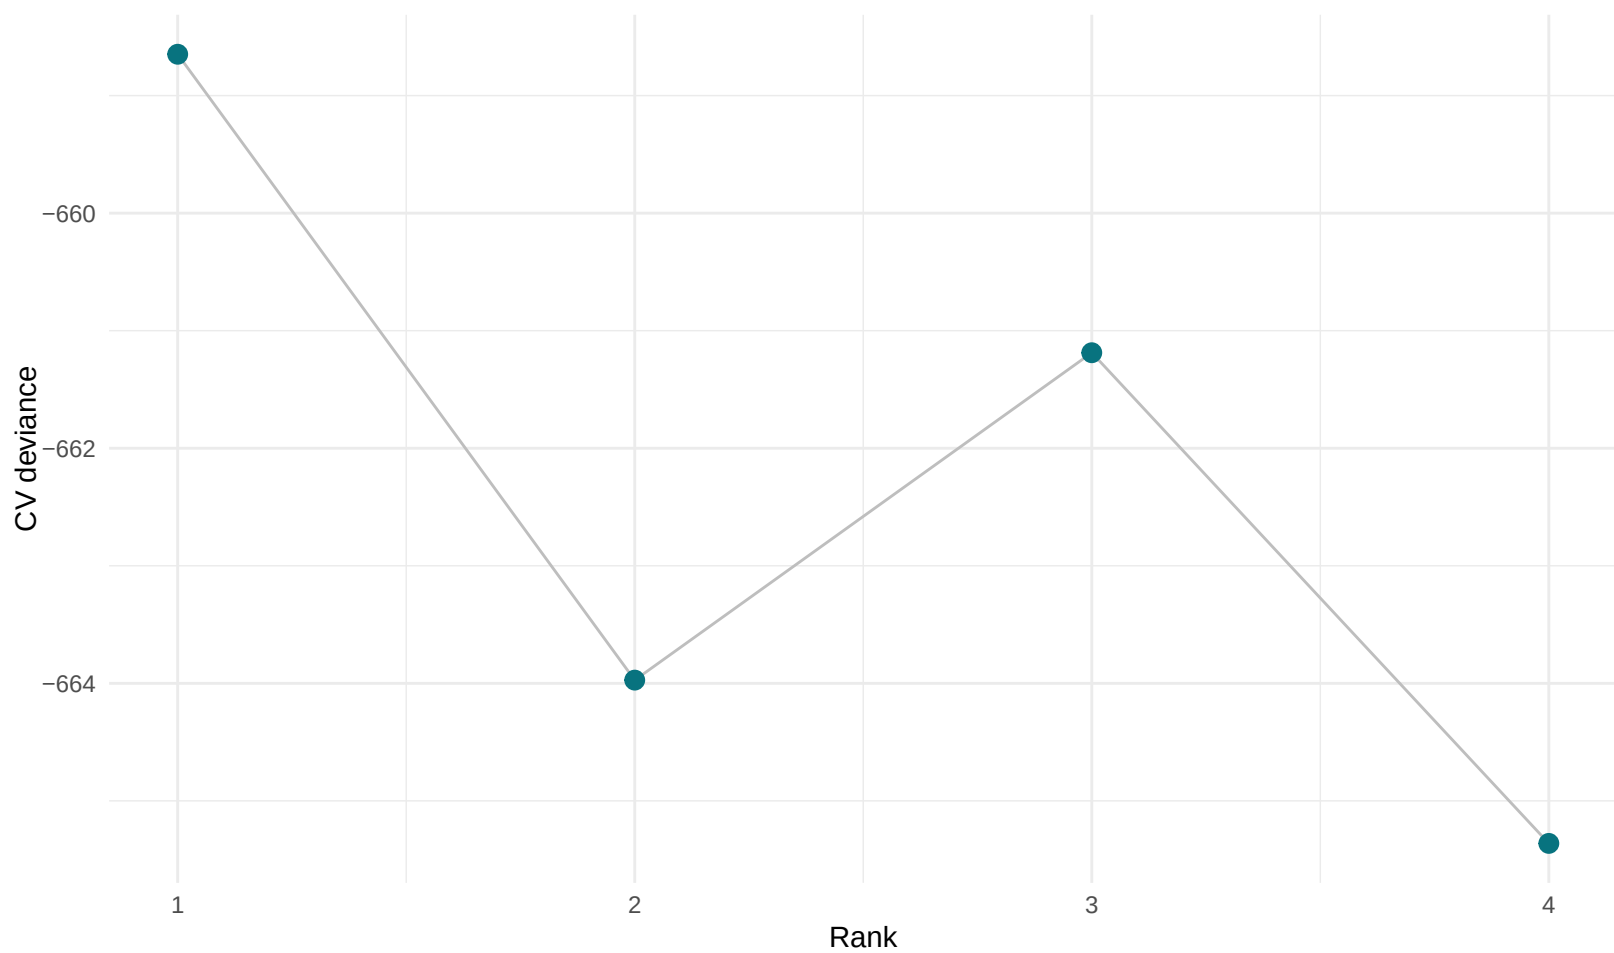

Regularization path: deviance across folds

Lambdas are displayed from stronger to weaker penalisation.

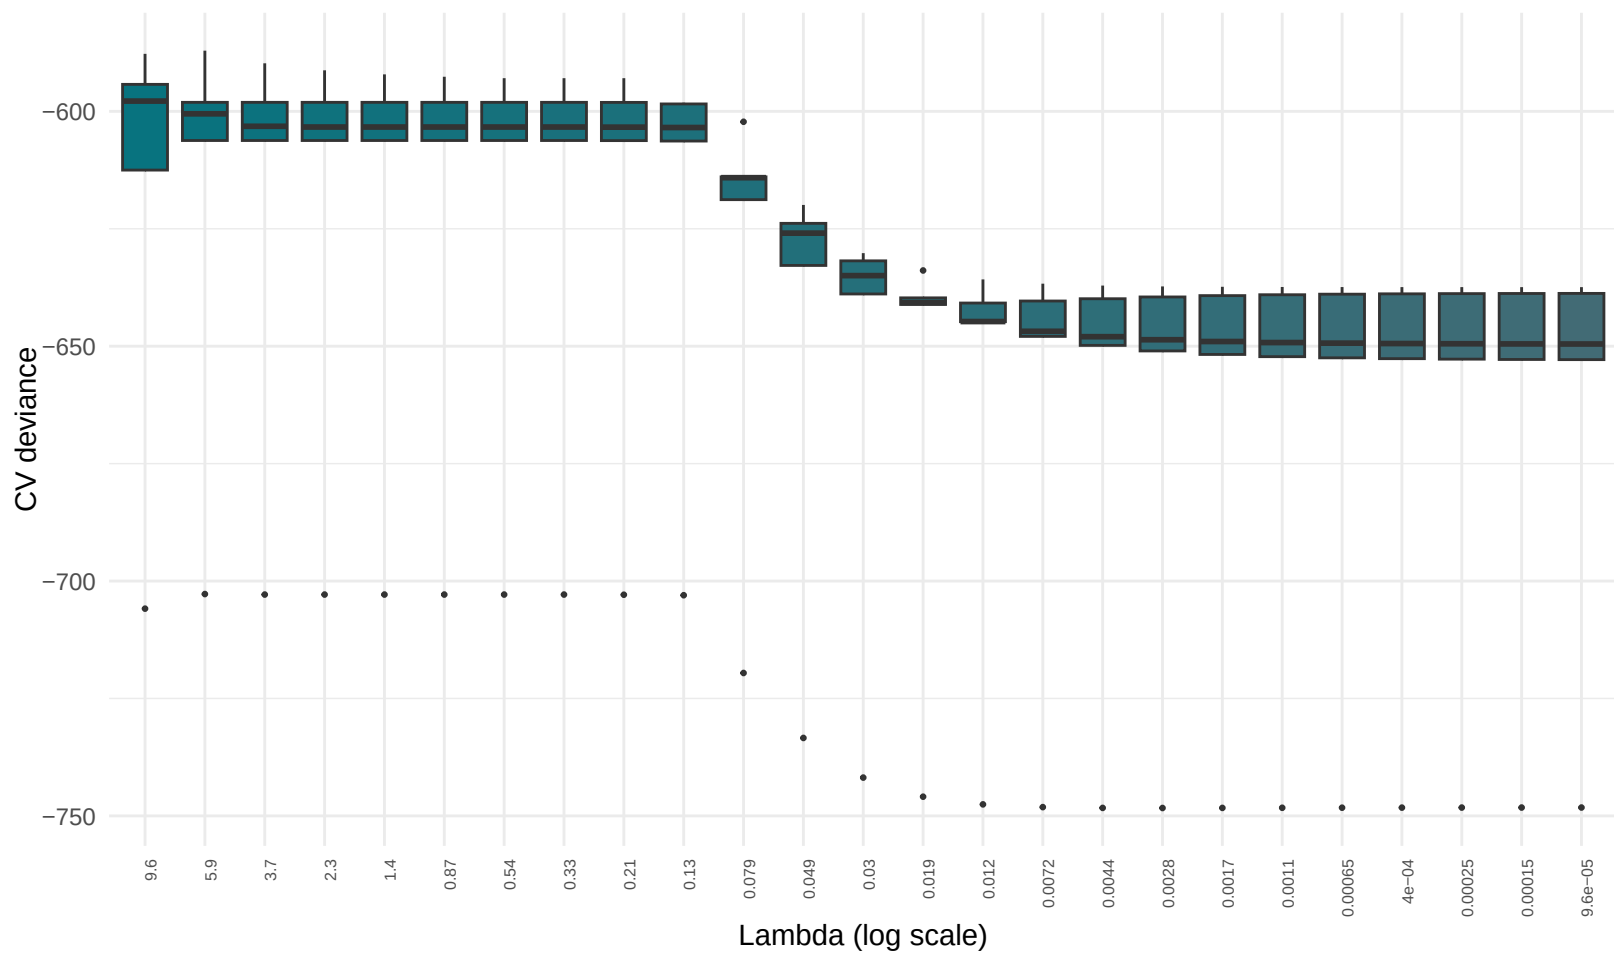

Childhood Model: Rank vs deviance

Optimization of latent factors

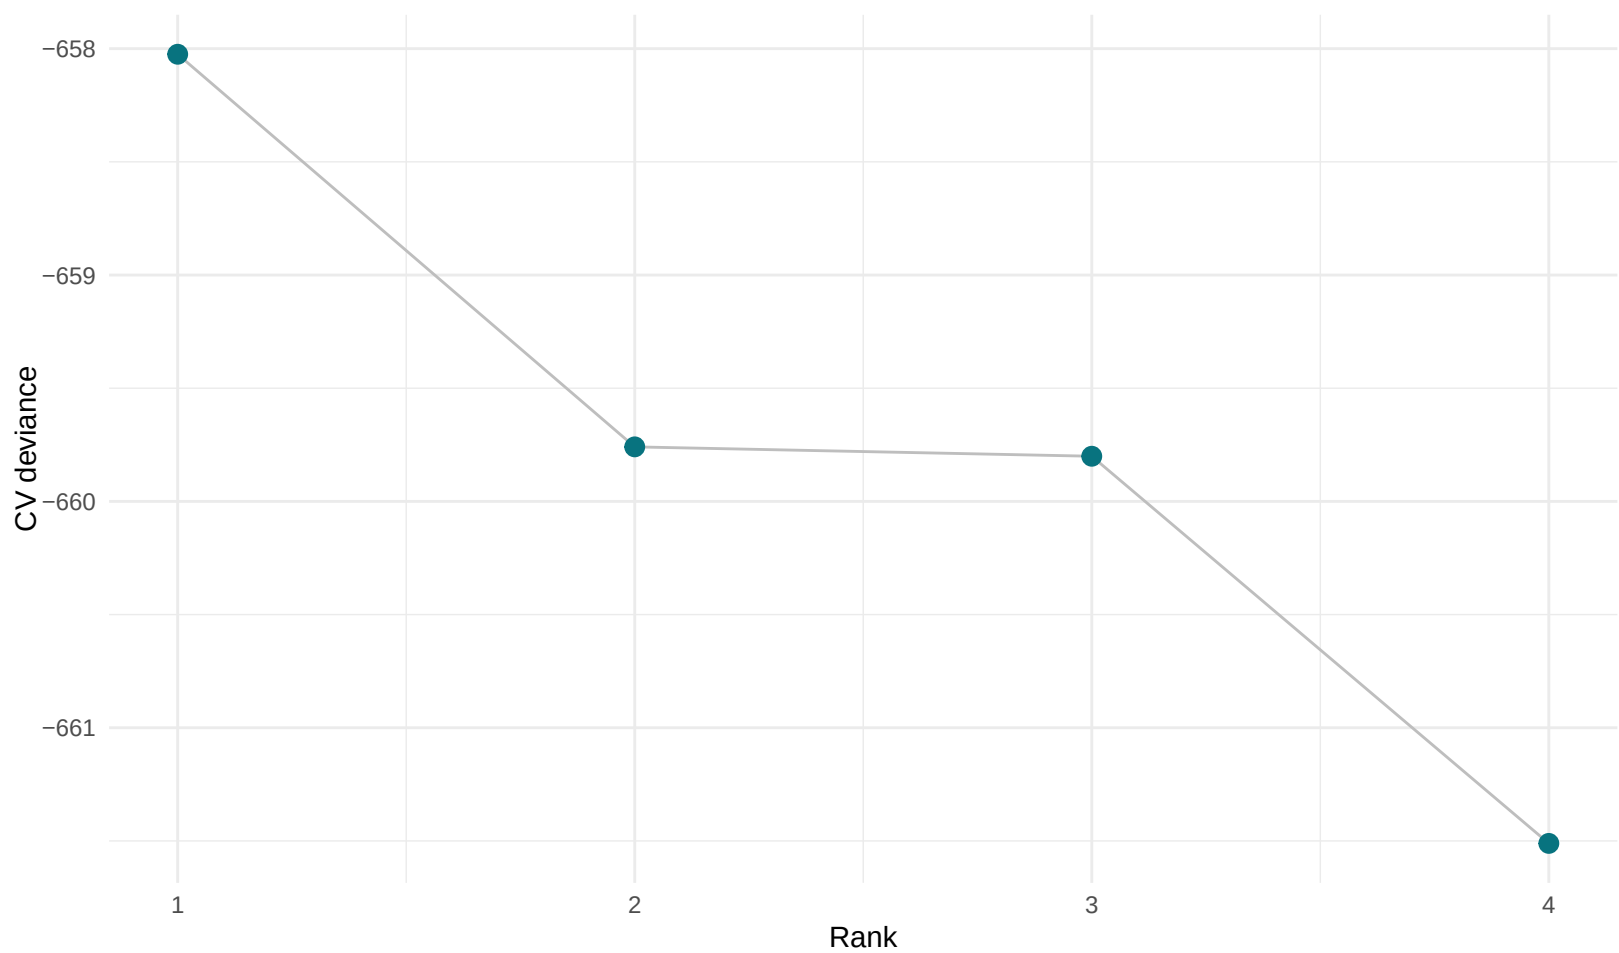

Regularization path: deviance across folds

Lambdas are displayed from stronger to weaker penalisation.

Combined Model: Rank vs deviance

Optimization of latent factors

Regularization path: deviance across folds

Lambdas are displayed from stronger to weaker penalisation.
